Report Water Waste

Report Water Waste

Have you witnessed an incident of water waste and are **unable** to contact your **water provider** or **don't know where to report it?** Utilize the form below and the information will be forwarded to the appropriate water provider who can address the waste.

*Contact information is **not required** and this form can be submitted **anonymously.**

Water Waste Form

This form is not meant for water emergencies.

In the event of an **emergency**, please contact your city or **local water provider.**

**** If this is a water emergency, please contact your city or water provider directly ****

If you see an incident of water waste in your community and are **unable to contact** your **water provider**, you may use this form to notify the **Utah Division of Water Resources.** Your report will then be forwarded to your local water provider to address the issue. How each water provider handles these reports varies.

Water waste reports help solve water waste issues via information and education. The information reported is **not** released to the general public. Thank you for helping to raise awareness of potential issues in your area.

Report Water Wins

Have you witnessed some **awesome waterwise practices** in **your community?** Utilize the form below to report responsible water use by cities, businesses, government entities and residents who are going above and beyond to conserve Utah's water supply.

Waterwise actions and creative water conservation are crucial in making it possible for Utah to maintain a resilient water supply.

Water Win Form

We know there are many who are taking actions to contribute to this effort and we want to hear about it!
